**Re: Audited FY2018 College Illinois Annual Report**

The audited FY2018 College Illinois! Annual Report is available on the College Illinois! website.

As in prior years, the Illinois Student Assistance Commission submitted the College Illinois! Program's annual report to several parties including the Board of Higher Education on or before March 1.

Please note that having recently received the Illinois Student Assistance Commission's audited financial statements from the Illinois Auditor General, we are simply updating the unaudited FY2018 College Illinois! Annual Report on our website with audited FY2018 College Illinois! financial statements. There are no changes to the financial statements and therefore no change to the Annual Report.
